CAMPUS CITIZENS IMPORTANT

Running is a big problem when and after the tardy bell rings, but this can be avoided if students start their preparations for school early enough in the morning. Around doors stairs, one may encounter a large group of people, but pushing and shoving is no way to get through. On hot, humid days, drinking fountains may have lines that number in scores of people, but patiently waiting your turn is the only good way to handle the problem. Although they may seem very inconvenient at times, one way halls and stairs are really there for your protection, and respect of these halls and the patrols on duty will pay off in the long run. The halls at Pershing could be very safe and sane.

The classroom problems parallel the hall problems if not exceed them. Talking on just any day is bad enough without asking the date, period, heading, etc. of your neighbor during a test, of all things. Loitering around the room is very discouraging, if not embarrassing, to a teacher when she has a visitor. Ink is a necessary fixture, although using it as an excuse for a talking period is taboo. When entering a class, don't

rush the door and trample the teacher. This disorderly conduct will, sure as not, net you a black mark on the teacher's record. When the teacher has important business which might stop her from her duties in keeping order, the room officers have authority over the class.

Campus citizenship is what visitors notice first. They judge a school by the amount of paper and trash on the grounds. A good citizen will keep himself out of fights, and by this I mean stay out of the crowd that usually forms around a "beef."

Bicycle and scooter parking is closely regulated, or should be, by the patrols. Respect should be offered to these good citizens who give their time to this project.

When going to a school sponsored dance, going "stag" is very rude. When you spy a pretty girl all alone on the other side of the floor, don't ditch your date to gain another friend, because you will lose your first date as soon as you go to the other girl. Running, sliding, yelling, horse play, and general foolishness are all signs of thoughtless student who have never outgrown their childhood.
